Item 15 – Resolution on the nomination committee

The company shall have a nomination committee consisting of four members. The members should be one representative of each of the three largest shareholders in the company with regard to the number of votes held who wish to appoint such representatives, together with the Chairman of the board of directors whom also shall convene the first meeting of the nomination committee. The nomination committee shall perform the duty of the nomination committee in accordance with the Swedish corporate governance code. The nomination committee's term of office shall extend until a new nomination committee is appointed.

The nomination committee shall be composed based on shareholder statistics from Euroclear Sweden AB as of the last banking day in August and other reliable shareholder information which has been provided to the company at such time. When determining who are the three largest shareholders with regard to the number of votes held, a group of shareholders shall be considered as one owner if they (i) have been organized as a group in the Euroclear-system or (ii) have made public and notified the company that they have made a written agreement to take – through the coordinated exercise of voting rights – a common long-term view on the management of the company. The nomination committee shall appoint one of the members, who is not the chairman of the board of directors, as chairman of the nomination committee. The chairman of the nomination committee shall, if the

nomination committee does not resolve otherwise, be the member that represents the largest shareholder with regard to the number of votes held. The names of the representatives and the names of the shareholders they represent shall be announced as soon as they have been appointed.

If, during the term of office of the nomination committee, one or more shareholders having appointed a representative to the nomination committee no longer is among the three largest shareholders with regard to the number of votes held, representatives appointed by these shareholders shall resign and the shareholder or shareholders who then are among the three largest shareholders with regard to the number of votes held, may appoint their representatives. In the event that a member leaves the nomination committee before its term of office is completed, the shareholder who appointed the member shall appoint a new member. If this shareholder is no longer one of the three largest shareholders with regard to the number of votes held, a new member is appointed according to the above procedure. Unless there are special circumstances, no changes shall be made in the composition of the nomination committee if there are only marginal changes in the number of votes held or if the change occurs later than three months before the Annual General Meeting. A shareholder that has become one of the three largest shareholders, with regard to the number of votes held, due to a more significant change in the number of votes held later than three months before the Annual General Meeting shall, however, be entitled to appoint a representative who shall be invited to participate in the committee's work as a co-opted member. A shareholder who has appointed a representative as member of the nomination committee has the right to dismiss such member and appoint a new representative as member of the committee. Changes in the composition of the nomination committee shall be announced as soon as they have occurred.

Proposals of the board of directors

Item 9 – Resolution on the appropriation of earnings

The board of directors proposes a dividend of SEK 1.25 per share. Record date for dividend is proposed to be Tuesday, 2 May 2017. Payment of dividend is thus estimated to be effectuated by Euroclear Sweden AB on Friday, 5 May 2017.

Item 16 – Resolution on guidelines for compensation for the executive management

The board of directors' proposes that the Meeting resolves to adopt guidelines for compensation for the executive management substantially in accordance with the following. The company shall strive to offer members of the executive management of the company a compensation that is adjusted to the conditions of the market. The compensation committee shall prepare and present such compensation proposals to the board of directors for resolution. In the compensation proposals the importance of the work, competence, experience and performance shall be taken into account. The compensation may consist of: fixed yearly income, variable income, pension benefits, discretionary bonus arrangements, and severance pay. The board of directors may for certain special purposes, if it is motivated by special circumstances, choose to deviate from these guidelines.

Item 17 – Resolution on authorization for the board of directors to issue shares and/or convertibles

The board of directors proposes that the Meeting adopts a resolution to authorize the board of directors to, until the annual general meeting 2018, at one or several occasions and with or without deviation from the shareholders' preferential rights, adopt resolutions to issue shares and/or convertibles. The board of directors shall have the right to resolve that the shares and/or the convertibles shall be paid in cash or be paid in kind or otherwise be subject to conditions referred to in Chapter 2, Section 5, second paragraph 1-3 and 5 of the Swedish Companies Act or that the shares and/or the convertibles shall be subscribed for with a right of set-off. The shareholders shall retain their preferential rights if the board of directors resolves to issue new shares against cash contribution. The board of directors resolutions to issue shares and/or convertibles may result in an increase of the number of shares in the company of not more than 6,470,000 shares, in the aggregate (assuming full conversion of the convertibles and before any re-calculations according to the conditions of the convertibles). Notwithstanding what is stated above regarding preferential rights for existing shareholders in case of an issue of shares against cash contribution, directed issues may be made in order to finance acquisitions of companies or parts of companies. In case of a directed cash issue of shares, the subscription price for the new shares shall be determined in close connection with the share price for the Biotage share on the Nasdaq Stockholm at the time of the issue. In case of a directed cash issue of convertibles, the pricing and conditions of the convertibles shall be in line with market conditions. Considering the above, the board of directors shall also be authorized to resolve on such other conditions that the board of directors finds necessary to carry out the issues.

The reasons for the right to deviate from the shareholders preferential rights are to enable the company to, in a quick and effective way, finance acquisitions of companies or parts of companies. In case of full exercise of the authorization, and assuming full conversion of any issued convertibles (however before any re-calculations according to the conditions of the convertibles), the dilution effect corresponds to approximately 9.99 per cent of the share capital and the votes.

The board of directors, or any person appointed by the board of directors, shall be authorized to make minor adjustments of the resolution adopted by the Meeting in order to fulfil the registration with the Swedish Companies Registration Office (Sw. *Bolagsverket*). A resolution by the Meeting to adopt the board of directors' proposal shall be valid only where shareholders holding no less than two thirds of the votes cast as well as the shares represented at the Meeting approve the resolution.

Item 18 – Resolution on authorization for the board of directors to acquire and transfer own shares

The board of directors proposes that the Meeting resolves to authorize the board of directors to acquire and transfer own shares on Nasdaq Stockholm substantially in accordance with following:

1. The authorisation may be utilised on one or more occasions, however not longer than until the annual general meeting 2018.
2. The company may purchase at the most so many shares that the company's holding of own shares after the purchase amounts to a maximum of one-tenth of all the shares in the company. Number of transferred shares may not exceed the shares actually held by the company at time of the board's resolution to transfer the shares.
3. Acquisitions and transfers of shares may only take place at a price within the price interval at any time recorded on the Nasdaq Stockholm, and this shall refer to the interval between the highest buying price and the lowest selling price.

The purpose of the proposed authorisation is to give the board of directors wider freedom of action in the work with the company's capital structure. There is a requirement for a resolution to be passed in accordance with the board's proposal that the resolution of the Meeting is supported by shareholders representing at least 2/3 of both the votes cast and of the shares represented at the Meeting.

Documents

The accounting documents and the auditor's report and the complete proposal for the resolution under item 16, 17, and 18 above together with the auditor's report in accordance with Chapter 8, Section 54 of the Swedish Companies Act and the board of directors' report in accordance with Chapter 18, Section 4 and Chapter 19, Section 22 of the Swedish Companies Act and the motivated statement from the nomination committee will be held available at the company at the address Vimpelgatan 5 in Uppsala, Sweden, as from Thursday, April 6, 2017.
